

Information on Substances of Very High Concern (SVHC) in Articles According to REACH Regulation (EC) No 1907/2006, Article 33

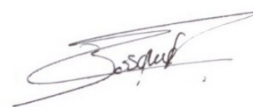

To Whom It May Concern:

In accordance with Article 33 of the European Union's REACH Regulation (EC) No 1907/2006, this letter is to inform you that the articles listed in the table below contain a Substance of Very High Concern (SVHC) at a concentration above 0.1% by weight.

Article reference	SVHC	CAS Number	Concentration (as % w/w)	Context of use
PhysioFlow Q-Link plastic Enclosure	2,2',6,6'-tetrabromo-4,4'-isopropylidenediphenol	79-94-7	> 0.1%	Flame Retardant in the resin used for the production of PhysioFlow Q-Link plastic enclosures, with no release intended in normal use.

Based on our knowledge and the information available, the presence of this SVHC does not require any specific handling precautions beyond the standard operating procedures for the product. As a recipient in the supply chain, you are responsible for fulfilling your own obligations under Article 33 and other relevant regulations.

Sincerely,

B.BOSQUET
